

To whom it may concern,

It is my pleasure to recommend Shraddhesh Kamal for your consideration.

I am the direct supervisor for Shraddhesh in his role as a student fabrication shop worker at the University of Texas at Dallas.

Shraddhesh has proven himself to be honest, dependable and a hard-working individual. Along with his inherent talents, Shraddhesh is easy to work with and can take instruction well. He is a team player, and manages to foster positive discussions and bring the best out of his counterparts. He really excelled in his role as a trainer of the students seeking to use the tools in the fabrication shop.

Please feel free to contact me at woten@utdallas.edu or 972-883-2407 should you like to discuss Shraddhesh's qualifications and experience further. I would be happy to expand on my recommendation.

Regards,

Gene Woten
UTDesign Studio Manager
